HELLO, I'M SCOTT

Scott LACKEY

From my earliest memories, everything I ever wanted revolved around two fundamental desires: the drive to build a business and the yearning for a life filled with adventure. The idea of building a business isn't just about creating something profitable; it's about my entrepreneurial spirit, the desire to innovate and to bring value to the world through my ideas and relationships.

Another core purpose for me is living a life of adventure. It's not just about seeking thrills or escaping the mundane; it's about embracing the unknown, delving into uncharted territories, challenging myself, and experiencing the richness of life in all its forms.

Despite these deepest desires, life has presented its share of challenges. I have always thought it appropriate that the middle word in life is "if". There have been moments when it seemed like I had reached the end, only to be hit by a lightning strike of change that reshaped my very being instantly.

Through these trials, I've come to understand that our journey is not defined by the obstacles we face, but by our response to them. It's adversity that brings the gifts we are seeking. We are, in essence, the architects of our own circumstances. I have also discovered that we are the architects and the driving force behind the changes we desire. Not our sphere of influences and social constructs.

As a Business Change Agent speaker, my goal is to ignite this transformative spark within others. My mission is to inspire individuals and organizations to confront the challenges they've been avoiding. The dreams and goals we seek are in the work we are unwilling to do. This requires an attack on our limitations to realize the results you have always wanted.

In sharing inspirational stories and insights, I aim to serve as a catalyst for change, guiding others towards a profound realization of their potential. It's all about embracing the why and addressing the who—understanding the deeper motivations that propel us forward—that we truly unlock the power to transform our lives and businesses alike.
